"Renew Our Common Home". CAFOD's new campaign. To avoid the worst effects of climate change, we must limit global temperature rise to 1.5C. Going above 1.5C warming could multiply hunger, migration and conflict. To avoid this, we need the UK to reduce greenhouse gas emissions to 'net zero' by 2045. This will mean Britain no longer contributes to climate change. We need urgent action now. Please sign the online petition: <https://e-activist.com/page/36329/petition/1>
